## HOT TUB TIMES

(714) 693-3404

August 2010

### Store Hours

Mon – Sat 10am to 6pm  
Sunday 12pm to 5pm

### Carlos's Helpful Hints

Each month we will feature  
A new tip on hot tub care  
From our Service Technician,  
Carlos Gomez

### Tip #2: Cover Care

Conditioning the spa cover on a monthly basis will prolong it's life. Conditioning the cover will help to keep the vinyl from hardening and cracking, and is especially effective for covers exposed to harsh outdoor elements like the sun's ultraviolet rays, or Colder winter temperatures. I recommend using 303 Aerospace Protectant. 303 is the Leader in UV Screening Technology. This product is like "SPF 40 sunscreen for your Spa". Conditioning Products usually should only be used on the topside of the cover. In order to clean the underside, simply use a garden hose and allow to air dry.

If you ever have questions or need advice about your spa, feel free to call me, or send me an email at...

### Wanted: Your Testimonial!

We are currently putting together a list of happy hot tub owners who would be interested in sharing their experience with Coastal Hot Spring Spas and the spa purchased. We know your time is important, so as token of our appreciation, we are offering a gift certificate for \$50 for your video testimonial. For more details please call and ask for Cindy at 714-693-3404.
